## 2020-2021

Product Catalogue

 Shachihata

Shachihata began selling stamp pads in 1925.  
Since that time the company has continued to envision and create highly  
useful consumer products of all kinds.

People around the world have come to love Shachihata's products, and this has  
become a great source of pride as well as a barometer to guide our actions in  
many lines of business.

The modes of communication that people use today are evolving at an  
incredibly swift pace. We have developed technologies to accomplish  
the tasks of marking, notifying, and approving digitally  
as well as traditional ink based solutions.

Our goal at Shachihata is to remain a global leader who supports better  
communication in order to benefit people and society.

Creative thought is the means to this end, combined with the act of meeting  
challenges in manufacturing.

Be assured we will meet all of the challenges we face.

# SHACHIHATA'S ECO ACTION CONCEPT

~For our Earth and our Future~

## Environmental Policy

### ■ Environmental Charter

As an enterprise that enriches people's daily lives and culture, Shachihata regards environmental preservation as a corporate responsibility and is dedicated to the realization of a low-carbon society.

We also seek to provide environmentally friendly products and services with a low impact on the environment in line with its basic philosophy of balancing the needs of the environment with corporate activities.

### ■ Guiding Principles

1. We shall seek to create products that enrich people's lives and culture while finding the optimal way to manufacture them from the standpoint of the preservation of the global environment.
2. We shall make our environmental activities a management priority and encourage all employees to do their utmost to support these efforts.
3. We shall set our own standards for eco action and take steps to prevent the further destruction of the environment. In addition to adhering to relevant laws, regulations and other requirements.
4. We shall undertake periodic reviews of our environmental practices and standards with the aim of sustaining progress made in preserving the environment.
5. Steps shall be taken to make our environmental policies known not only to all employees but the general public as well with the goal of cultivating a shared understanding among all.

## 1. Manufacturing meets current regulations

Shachihata is manufacturing products under strict Global regulations of chemical substances from the planning of material composition to the shipping. We are also a Green Partner with some electronic and electrical equipment manufacturers.

### RoHS

Shachihata follows directives of the European Union that restricts the use of certain hazardous substances in electrical and electronic equipment. Our products are widely used in the production process of manufacturers of such products.

### REACH (SVHC)

Shachihata reviews regulations for manufacturers and importers by gathering information on the properties of chemical substances, in order to protect people's health and environment.

### ELV

Shachihata products are widely used in the production process of car manufacturers as marking tools which meets the End of Life Vehicles Directive.

### GHS

Shachihata provides by SDS the correct information about the potential dangers of chemical products according to Globally Harmonized System of Classification and Labeling.

### Shachihata is adopting original regulation of environmental investigation.

[Example] Flow of chemical substances of purchased materials

- |  |                                    |
|--|------------------------------------|
| 1. Selection of manufacturer of material | 4. Registration of analytical data |
| 2. Inspection of controlled substances   | 5. Incoming inspection             |
| 3. Verification of analytical data       | 6. Acceptance validation           |

Shachihata is compliant with various chemical survey sheets which are required by many types of industries, countries, and organizations (such as the EU), and is able to submit the documents.

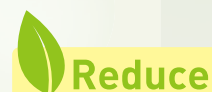

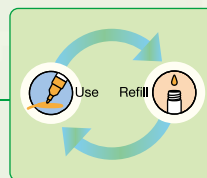

- SDS (Safety Data Sheet) Japanese / English
- JIG (Joint Industry Guide)
- JAMP chemSHERPA
- JAMA (Japan Automobile Association) sheet

- GADSL (Global Automotive Declarable Substance List)
- Declaration of Non-use of RoHS / halogen / SVHC / phthalate ester / PFOS
- Other particular inspection sheet

Environmental issues caused by excessive energy consumption must be dealt with immediately. Shachihata is dedicated to restoring balance in the global environment by stepping up its efforts to conserve and recycle resources and develop production systems that minimize industrial waste. Eco Action will remain a guiding principle in Shachihata's operations now and for the foreseeable future.

## 2. Manufacturing Long Life products

Long-lasting is one of our core concepts in research and development. We offer a full line-up of refillable markers, stamp pads, and pre-inked stamps.

## 3. Ecology system good for people and the environment

Shachihata conducts eco-friendly manufacturing at each factory.

Example: Inazawa (Japan) factory

Ink solvent recovery system

Waste water regenerating system

ISO 9001 / ISO 14001 : RESEARCH&DEVELOPMENT, PRODUCTION HEADQUARTER

## 4. Manufacturing that is good for the environment...ECO-GREEN

Shachihata has released a line of ECO-GREEN products made from recycled and other materials of a low impact on the environment with the realization of the action that must be taken by the manufacturer.

| CATEGORY | ITEM CODE           | RECYCLED PLASTICS                        | PERCENTAGE OF RECYCLED PLASTICS* |
|----------|---------------------|--|----------------------------------|
| Xstamper | CD-AEC(0)・CD-AEC(1) | RECYCLED ABS, RECYCLED POM, RECYCLED PET | 65%                              |
|          | CD-BEC/S            | RECYCLED ABS, RECYCLED POM, RECYCLED PET | 64%                              |
|          | CD-BEC/MS           | RECYCLED ABS                             | 68%                              |

\*Percentage of recycled plastics weight in the total of the plastic, not including the ink weight.

## 5. To prevent global warming

Shachihata has been conducting Carbon Offset (in Australia) to prevent global warming.

### [Carbon Offset]

Artline has purchased carbon credits in global hydroelectric power generation. So Artline 70, 90, 700 and 100 permanent markers, and 200 writing pens are doing their bit for the environment.

# ABOUT THIS CATALOGUE...

We are pleased to present our extensive range of Artline, Xstamper, Xstamper QuiX and TAT products in this easy to use catalogue. Below and opposite you will see an explanation of the codes and symbols we use to describe their use and characteristics.

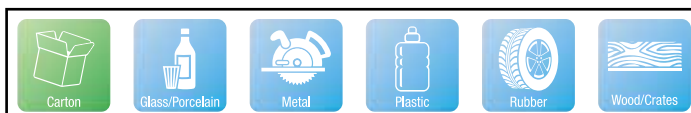

## PERMANENT MARKERS

# Artline® PERMANENT MARKERS

## COLOURFUL PERMANENT MARKERS FOR A VARIETY OF USES

For use on most surfaces - paper, plastic, metal, etc.  
Long lasting clear drawing is assured with the fast dry and water resistant ink.  
The safe alcohol based solvent ink - Xylene Free.

# What is “Artline” ?

## Ensuring Artline is a brand people love now and into the future.

Public interest in the information released by companies is rising steadily.

The products and packages that our customers see, as well as advertisements and promotional efforts, all have a role to play as purveyors of information.

It is vital we convey a consistent message of quality as the brand chosen by consumers, especially in this age of fierce global competition. Toward this end, we have established a brand value system and communications standards.

It is our hope that through the shared vision made possible by this volume we can work together to keep the Artline brand strong.

### CORPORATE PHILOSOPHY

#### Serving worldwide customers through future products realizing “Convenience”, “Genuine Pleasure” and “Trust & Safety”

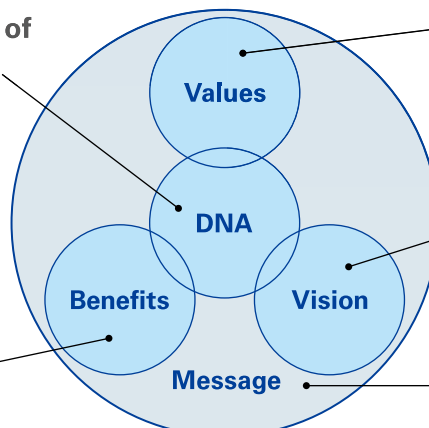

We develop demands even customers are not aware of to provide ultimate “convenience”, “genuine pleasure” and “trust & safety” through our unique and hearty products and services for worldwide customers.

### WHAT IS ARTLINE ?

History and background of the Artline brand today

Advantages the Artline brand brings to its customers

Competitive values intrinsic in the Artline brand

Ideals identified with the Artline brand

The message Artline wishes to convey

## DNA

### A brand borne of and shaped by the voices of customers

#### A history of creations that brings joy to customers

Artline is a line of products developed by Shachihata, a stationery manufacturer established in 1925 in Japan.

The starting point for the Artline brand was the development of a stamp pad that was so popular, Shachihata itself became the genericized trademark for all such products.

The advanced ink technologies that grew out of the development of the stamp pads were used to create a line of markers in 1954 that are now the brand's flagship products.

In the 50 years since its birth, Artline has won the heart of consumers thanks to Shachihata's tireless efforts to sound out customers around the world on their needs and its unrelenting efforts to improve existing products and develop new ones.

The voices of each of our customers, no matter how small, play an important role in the creation of our products.

We believe that the cumulative efforts of listening to our customers and strengthening our ties with them enable us to make Artline a reliable brand that is always at their side.

## VALUES

### Quality that fuses customers' sentiments with Shachihata's cutting-edge technology Marking instruments familiar to each and every person

#### Artline has played a role in the development of society as a whole with products that meet the specific needs of customers by making use of the marking technology cultivated by Shachihata over the years

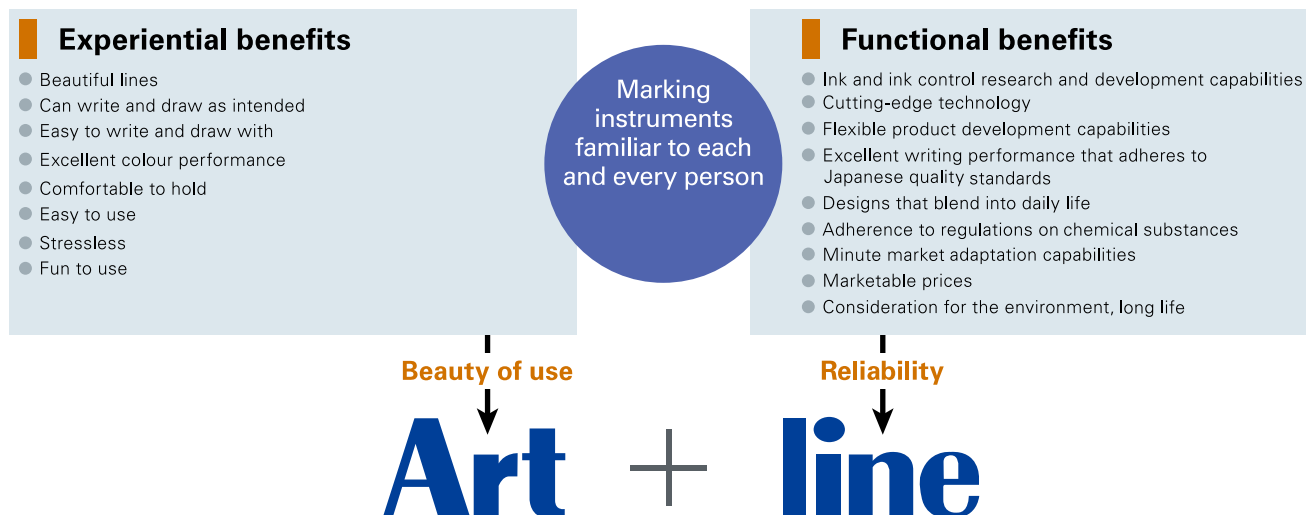

1. We shall enhance the basic performance of marking instruments so they are more fun, useful, and easy-to-use.

2. We shall enhance customer satisfaction by developing products that fulfill customer needs.

3. We shall build a society in which the needs of people as well as the environment are taken into account through the provision of safe and reliable products and an eco-friendly manufacturing process.

## BENEFITS

### Instruments that are beautiful to use backed by outstanding technology Instruments people love and can count on

## VISION

### Bringing new colour and wonder to customers' daily lives

#### Creating a brand that is a part of and enriches customers' lives

The process of writing and drawing with an Artline markers is one that gives shape to one's thoughts and adds colour to their lives.

Dazzling ideas and inspired thoughts worthy of recording. Amazing plans that will take everyone by surprise.

Gemlike schemes that are notions come to life with an Artline marker.

Writing with an Artline marker is so smooth and flexible that you feel the ink flows from the fingertips.

The writing instruments are like a longtime partner and feel good in one's hand.

A favorite pen lasts a long time and can be used over and again.

Artline makes tomorrow more enjoyable.

We shall develop Artline as a brand that is a part of and one that enriches peoples' lives by creating new products that people wish to have and which they can enjoy writing with and using.

## MESSAGE

### New forms of communication foster the next generation.

#### "Colour every day, Line your heart"

**Artline**<sup>®</sup>  
*Line Your Heart*

Beautiful words and colourful lines enhance the charm of attractive ideas, transforming drawing into an act of beauty.

Artline depicts the true image of communication.

Artline leads the way to a new era of drawing and creations day by day.

Colour every day, Line your heart.

# Artline®

## INSTRUCTION FOR PAINT MARKER

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

- Iron

1

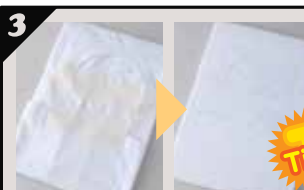

Attach a design to a piece of card with clear or paper tape.

2

Insert the card & design inside the T-shirt and position required.

3

Fold the sides of the T-shirt behind the card and secure them with clear or paper tape.

**Tips**

Keep the front side of the T-shirt from wrinkling. It makes line work easier.

4

Use a fine nib black or dark coloured **T-SHIRT MARKER** or the EK-750 to trace the outline of the design.

**Tips**

At this stage a rough outline is OK because you'll re-trace later.

5

Fill in the design with **T-SHIRT MARKER**.

**Tips**

Keep applying colour until there is no white visible in the coloured areas. Gently stretch the material to check uncoloured area is not left.

**Tips**

Lastly, colour small and detailed areas.

6

A thick emphasis to outlines using a black or dark coloured **T-SHIRT MARKER** or the EK-750 will add depth and contrast to your design. Modify any unsatisfactory areas.

7

Remove the card from the T-shirt. After the ink has dried, gently iron over the design at a medium heat to fix the colours.

**Point**

- Painting over other colours before ink dries will add a gradational effect. Note: A pen nib will get dirty.
- After ink dries, you may overglaze.
- You can also use colour photos or magazine cutouts as T-shirt designs.

#### INSTRUCTION FOR MARKER FOR FABRIC

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

## SPECIAL PURPOSE MARKERS

DESIGNED TO OFFER THE PERFECT MARKER FOR ANY JOB. SUPERIOR INK COUPLED WITH LONG LASTING BARRELS AND NIBS ENSURE THE PROFESSIONAL SERIES WILL STAND THE TEST OF TIME NO MATTER WHAT THE SITUATION.

## INSTRUCTION FOR POSTER MARKER

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

- 6 / 36
- M<sup>3</sup> 0.052438

Conforms to  
ASTM D 4236  
for USA only

## INSTRUCTION FOR POSTER MARKER

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

# Artline® BOARD MARKERS

IDEAL FOR MENU BOARDS IN RESTAURANTS, PUBS & CLUBS ETC.

Recommended for indoor use.

## Artline® Glassboard Marker EPG-4

Intense vivid colour for marking on glass. Easily erasable with a dry-wipe or a water dampened wipe.

## PENCILS

### ARTLINE PENCILS

Artline brand high quality pencils.  
For writing, drawing, and sketching.  
The lead does not break easily.

Sketching

General Writing

Drawing

### Artline® PENCIL HB EP-HB

High quality Artline pencil. Pencil marks are easily erased and pencils are easily sharpened.

4974052 861291

- Built-in eraser
- 12 / 1,440
- M<sup>3</sup> 0.027227

### Artline® PENCIL 2B EP-2B

High quality Artline pencil with 2.5mm lead. The deep colour enables quick marking on exam answer sheets.

4974052 852732

- 12 / 2,880
- M<sup>3</sup> 0.044512

1 : Specially designed for exam.

2 : Can be easily read by test reading machines.

3 : Filling-in can be performed easily.

4 : Strong lead that resists breakage.

# TAT INDELIBLE STAMP PADS & TAT STAMPER

## <Features of TAT stamp pads & TAT stamper>

- Multi-purpose stamping applications for all kinds of industrial works, lot number, item number, specification, inspection marking.
- Clear stamping on non-porous surfaces.
- Strong marking, blur proof and long lasting.
- Resistant to water, light, oil, heat, resin and chemical.
- Marking remains even after second manufacturing process.  
(alcohol washing, varnish processing, heating process and washing, etc.)

## ● TAT series for various usage

# Multi-purpose stamping applications for all kinds of industrial works

**Point 1** We have been selling TAT products for more than 50 years from their release. We have a long history of reliance.

Many major automobile and electronics manufacturers around the world have been using TAT for many years.

**Point 2** TAT Ink conforms to various restrictions and safe for people and the environment.

TAT ink is in compliance with EU restrictions on chemical substances and directives concerning environment. We assure that our customers can use TAT products with confidence in the product manufacturing process.

■ TAT products conform to regulations below

1) RoHS Directive\*<sup>1</sup> 2) ELV Directive\*<sup>2</sup> 3) GHS\*<sup>3</sup> 4) PFOSs\*<sup>4</sup> • PFOA\*<sup>4</sup> 5) REACH\*<sup>5</sup>

■ Certification and Service

1) We can issue various chemical survey sheets and reports  
2) We can issue our investigation sheet quickly

**Point 3** We can offer special inks.

We provide special inks that meet the request for a special stamp environment.

## Reference

### 1.Restriction of the Use of Certain Hazardous Substances (RoHS) Directive:

A directive of the European Union that restricts the use of certain hazardous substances in electrical and electronic equipment. The sale of electrical and electronic equipment that contain certain levels of (1) lead, (2) mercury, (3) cadmium, (4) hexavalent chromium, (5) polybrominated biphenyls (PBBs), (6) polybrominated diphenyl ethers (PBDEs), (7) dibutyl phthalate (DBP), (8) benzylbutyl phthalate (BBP), (9) bis-(2-ethylhexyl) phthalate (DEHP) and (10) diisobutyl phthalate (DIBP) is banned.

### 2.End of Life Vehicles (ELV) Directive :

A directive of the European Union that addresses the recycling of end-of-life vehicles with the aim of preventing the disposal of hazardous substances. Vehicles sold in the EU after July 2003 may not contain lead, mercury, cadmium, and hexavalent chromium.

### 3.Globally Harmonized System of Classification and labeling(GHS) :

The GHS is designed to alert workers and consumers to the potential dangers of chemical products by classifying chemical products according to the danger or toxicity of the product including whether they are carcinogenic or flammable, creating a standardized system for labeling that makes this information clear to users, and providing safety data sheets.

### 4.Perfluorooctane sulfonates (PFOSs) and Perfluorooctanoic acid (PFOA):

Recent studies have pointed to buildup of perfluorooctane sulfonates and perfluorooctanoic acid, which do not readily decompose, in wild animals and the environment. Based on these findings, limits have been placed on PFOSs and PFOA as a new environmentally hazardous substance (persistent organic pollutant).

### 5.Registration, Evaluation, Authorization and Restriction of Chemical Substances (REACH):

Introduced in June 2007 in the European Union, REACH is the most far-reaching restriction on chemical substances. The regulation requires manufacturers and importers to gather information on the properties of chemical substances of which they handle one ton or more annually and register the information with the European Chemicals Agency (ECHA).

## TAT INDELIBLE STAMP PAD Multipurpose

PERMANENT

PIGMENT INK

REFILLABLE

RoHS

- Contains oil based ink with ultra fine pigment particles, ideal for clear and smear resistant imprint on non-porous surfaces like metal, plastic, glass, leather, as well as on porous surfaces like coated paper, wood, etc.
- Its impression is heat-proof, highly oil resistant and shows excellent performance even after exposure to extreme conditions.

## TAT SOLVENT

- Useful for restoring dried pad surfaces, diluting sticky pad surfaces with solvent to a proper consistency, and cleaning rubber stamps or removing impressions.
- When removing impressions, trial is recommended so that the solvent may not damage the objects' surfaces.

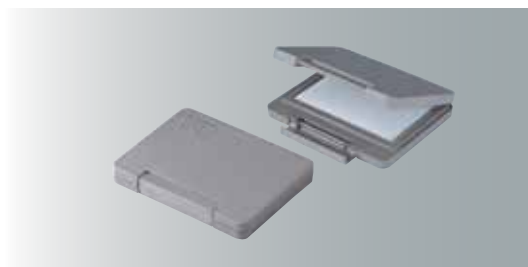

| USAGE                       | ITEM CODE | CONTENTS | USAGE   |
|-----------------------------|-----------|----------|---|
| SOLVENT for REGULAR DRY INK | SOL-1-31  | 55ml.    | <ul style="list-style-type: none"> <li>• To restore dried or sticky surfaces of TAT stamp pads.</li> <li>• Cleaning stamps, removing impressions, etc.</li> </ul> |
|                             | SOL-3-31  | 330ml.   |   |
| SOLVENT for QUICK DRY INK   | SOL-1-32  | 55ml.    |   |
|                             | SOL-3-32  | 330ml.   |   |

## TAT UNINKED STAMP PAD

- TAT uninked stamp pads are for use with TAT ink.

| PAD SIZE    |            | ITEM CODE |
|-------------|------------|-----------|
| MEDIUM      | 56 x 90mm  | ATU-2     |
| LARGE       | 67 x 106mm | ATU-3     |
| EXTRA LARGE | 87 x 143mm | ATU-4     |

## TAT SPECIAL TYPE INK AND SOLVENT FOR SPECIFIC MATERIAL

TAT ink (Special type) is recommended for impressions on specific materials, special colours and withstanding 2nd process effects.

### What would you like to print?

**Metal? Plastic? Rubber? Cloth?**

**Step1:** Identify the surface material you wish to print on.

### What is the condition of imprint surface? What colour would you like?

**Imprint surface will blur (Wood, Cloth)? Or shed (Mirror finish, PP coating)?**

**Step2:** Check the colour of imprint surface.

★ Recommend white ink for dark-coloured surface.

### What is 2nd processing after stamping?

**2nd processing, such as washing with chemical material and heating after stamping?**

**Step3:** Check and identify any additional conditions (atmospheric or locational) that could influence results.

### Special type TAT ink is available for

- ① Special imprint surface (PE, PP, Silicon coated)
- ② Dark-coloured surfaces (Black, Dark blue)
- ③ Colour which is not available with stock TAT ink.
- ④ Processing such as washed by alcohol, varnish, heating and laundry.

### Ideal ink

Quick dry type is easy to dry and harden, so please choose proper type.

\*Basis of the judgement

1. Water, Oil, Solvent, Chemical resistance  
● : Not removal, △ : Partly Removal, X : All removal
2. Fade, Heat resistance  
● : Changeless, △ : Partly Change, X : Mostly Changed
3. Washing resistance (grey scale)  
5 Grade: Changeless, 1 Grade: Mostly changed

- Note 1: White ink is not suitable for highly absorbent paper and cloth.
- Note 2: Although impression on glass or porcelain are very clear, avoid stamping on these materials used near water.
- Note 3: This light corresponds to the sunlight for 200 days outside.
- Note 4: If the heat is over 100°C, pigment will burn and turn brown.
- Note 5: After testing with the solvent, the impression will be removed, except impressed on cotton cloth.

- If impression is on non-carbon and thermal paper, colour of the impression can be absorbed or changed.
- Stamping conditions will vary depending on the surface of the object to be stamped.  
Trial stamping should be conducted first to determine results.
- In case of impression on specific materials and with stamping 2nd process, it is recommended to use TAT ink (Special type).

Film

### XQT-6C (6mm $\phi$ )

Round type, diameter 6mm.  
Best for QC inspection use.

### XQT-11C (11mm $\phi$ )

Small round stamps  
accommodate a wide range  
of messages.

### XQT-16C (16mm $\phi$ )

Round type, diameter 16mm.

### XQT-20C (20mm $\phi$ )

Round type, diameter 20mm.

### XQT-30C (30mm $\phi$ )

Round type, diameter 30mm.

### XQT-1342C (13x42mm)

Rectangular type, 13 x 42mm.

### TAT Stamper SOLVENT

| Type   | Item code     |               | Contents |
|--|---------------|---------------|----------|
|  | Japanese      | English       |          |
| Multi purpose, Metal, Plastic                  | XQTR-20-RM-31 |               | 20 ml.   |
| Quick dry type (Multi purpose, Metal, Plastic) | XQTR-20-RM-32 | CQTR-20-RM-32 |          |
| Date stamp                                     | XQTR-20-RM-26 |               |          |

## HOW TO RE-INK

### XQT-6C • XQT-11C • QPTT-QE9RG-U

1. Remove cap and place face down.
2. Hold stamp handle firmly and pull out die holder from handle.
3. Place die holder on top of removed cap with impression die facing down. Hold die holder firmly and remove top plug.
4. Place recommended number of drops of ink into the opening.

### XQT-16C • XQT-20C • QPTT-QE14RG-U • QPTT-QE18RG-U

1. Remove the holder and insert into bottom of cap.
2. Place drops of ink into the opening.

### XQT-30C • QPTT-QE28RG-U

1. Screw off cap and hold handle vertically. Use bottom-side of cap to remove die holder. Insert bottom of cap to die holder and turn handle counter-clockwise towards 'open' to remove die holder.
2. Place recommended number of drops of ink into the opening.

### XQT-1342C • QPTT-Q1140RG-U

1. Remove the holder and take out the caps.
2. Place drops of ink into the openings.

\*Pigment ink: Character in black    **Dye stuff ink: Character in red**

\*Pigment ink is superior to light resistant and chemical resistant.

Dye stuff ink is low viscosity and relatively less sticky on the surface of stamp pad than pigment ink for a long time use.

\*White ink is not suitable for stamping on absorbent cloth and paper.

\*Criterion of drying time: Under controlled tests 20°C±1, 65%±5 humidity.

**\*1. It may occur to remove ink when rubbing off strongly.**

## (M)SDS

(Material) Safety Data Sheet ((M)SDS) is supplied by manufacturers of product which contains the information of chemical materials. To control properly, (M)SDS also contains the information about ingredients and chemical materials and how to handle the chemical products.

## <Cautions>

- Stamping conditions will vary depending on the surface of the object to be stamped.  
Trial stamping should be conducted first to determine results.
- Under the condition of temperature 20°C±1, humidity 65%±5.
- Pigment ink is superior to light resistant and chemical resistant. Dye stuff ink is low viscosity and relatively less sticky on the surface of stamp pad than pigment ink for long time use.
- If you need another colour of STSG or STG (Black, Red, Blue, Green, Purple, White), M-505N or M-606N is available.
- As for STSM-N, STM-N (For metal) and STSP-N, STP-N (For plastic), only black is available.  
If you need another colour, use M-500N or M-600N.
- Super Quick dry ink is available if less drying time ink than Quick dry ink is necessary.
- \* White ink is not suitable for stamping on absorbent cloth and paper.

# Xstamper®

## THEY REALLY ARE MADE BETTER

1965

Xstamper was launched from upside down idea that "Stamp did not require stamp pad".

1968

Japan's pre-inked stamp market was created with a birth of Name stamp (9 mm type).

1968

First overseas Shachihata Inc. focusing on stamper business was established in U.S.A..

1973

Rotating stamper which was a baseline of current Dater stamps was launched.

1983

Dual functional ballpoint pen which was a combination of ballpoint pen and name stamp was launched.

1989

Custom stamp made by laser processing machine was launched.

2000

Small laser processing machine was employed.

2006

Xstamper vX series were launched.

2007

vXDater series which adopted slim PE technology were launched.

2008

Xstamper Eco Green series which adopted eco-friendly materials were launched.

2009

Secure stamper series which aimed to protect personal information were launched.

2012

Some of products were chosen as official seal in China.

2012

Some of products were chosen as custom office stampers in one of Asian markets.

2014

Some of products were chosen as election stamps in one of Asian markets.

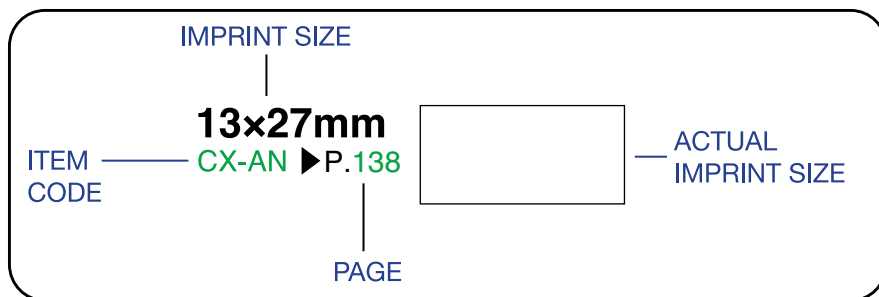

2016

Xstamper QuiX series were launched.

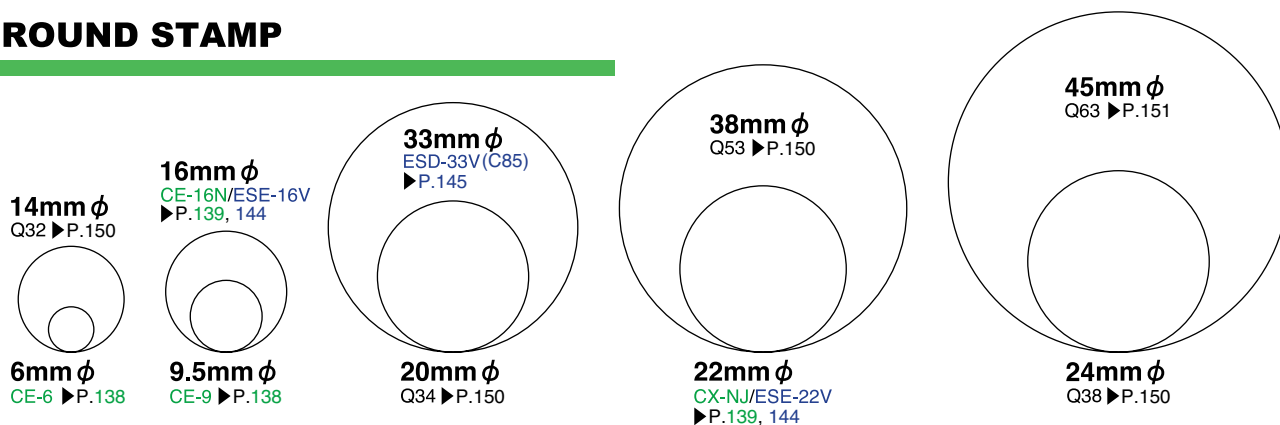

Every day millions of people around the world turn to Xstamper brand rubber stamps to assist them in their personal and business lives. They know they'll be getting a sharp, clear impression. They know they are enjoying the results of a long tradition of innovation. They know that each and every Xstamper is product of superior technology and quality materials. And, most comforting of all, they know that the Xstamper they hold in their hand comes with a lifetime guarantee.

# STOCK TITLE STAMPS

**BEST SELLER STOCK TITLE STAMPS  
FOR MORE EFFICIENT COMMUNICATION**

Pre-inked rubber stamp. No stamp pad required. Re-inking system for cost savings.

Several tens of thousands of clear impressions before re-inking.

Xstamper® means Quality

Clean

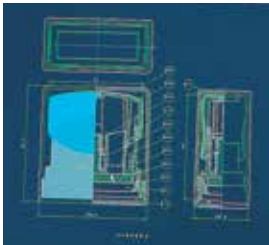

Re-inkable

Long lasting

Cost effective

### Non-slip Soft Grip

Soft rubberized grip for comfort and control.

### Retractable Frame System

Stamp face out of contact with desk top or papers to avoid accidental stamping.

### Clear Text Window

Title messages can be clearly seen and identified easily.

### Protective Impression Cover

Comes with an impression cover to protect the stamp surface.

### Pre-inked, No Mess

Pre-inked rubber. No need for messy stamp pads.

Clean

Xstamper eliminates the need for messy stamp pads. A retractable frame keeps the stamp surface out of contact with your desk.

Re-inkable

Our built-in reservoir re-inking system adds years of service to your Xstamper. Xstamper provides several tens of thousands of crisp and clean impressions before requiring additional ink.

Long lasting

After the first several tens of thousands of impressions, just a few drops of Xstamper ink is all you need for the next several tens of thousands of impressions.

Cost effective

Xstamper is so durable, you will never buy another stamp again, which means you pay less per impression than any other stamp.

Permanent marker

Secure marker

With ordinary marker ink, carbon often floats to the top after the ink dries, which makes original text readable again because of light reflection. Secure marker ink formula minimizes this phenomenon to obscure information.

## Xstamper® HOW TO RE-INK

**SIMPLE**  
**NO MESS**  
**FAST**  
**NO FUSS**  
**INCLUDED**

Just place drops of ink in your Xstamper. Make sure the ink is the same colour as your original stamp.

Hands remain clean throughout the re-inking process.

Within hours, your Xstamper will be ready for the next several tens of thousands of impressions.

After re-inking, leave your Xstamper in an upright position to allow complete absorption (approx. 12 hours).

Easy-to-follow re-inking instructions are included with every Xstamper.

**CE-6**  
**CE-9**  
**CE-16N**  
**ESE-16V**  
**ESE-22V**

Remove the holder and place drops of ink into the opening.

**CA-2N**  
**CA-2N(2)**

Remove the holder and place drops of ink into the openings.

**ESP-1V**  
**ESP-2V**

Remove the title plate and place 2 to 3 drops of ink into the openings.

**CD-AEC(0)**  
**CD-AEC(1)**  
**CD-BEC/S**

Remove base or impression frame from Line Dater. Cut tip of ink cartridge nozzle off about 5mm from the end. Gently squeeze ink into the hole on the right side of the date bands.

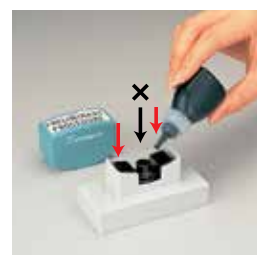

**CD-BEC/MS**

Remove impression frame from Line Dater. Insert tip of cartridge into either side of the impression frame and gently squeeze several drops of ink along the openings.

**CX-M**

With bottom facing you, hold the dial tightly so it does not move and slide out the rubber stamp cartridge. Put about 4 to 5 drops of refill ink into the channel. To insert stamp cartridge, slide in cartridge along the rails until the cartridge clicks into place. Be sure to insert cartridge into holder starting with the double slots side first.

**CX-AN**  
**CX-BN**  
**ES-BV**  
**CX-BN(2)**

Remove the holder and place drops of ink into the openings.

### ■ Production process of Xstamper QuiX

#### Layout

Type copy impression with Xstamper QuiX original software.

#### Impression Die Printing

Set die impression with cartridge to process.

#### Impression Label Printing

Print impression label.

### ■ Assembly process of Xstamper QuiX

#### Assembly

Mount the processed impression die to stamp parts.

#### Ink Absorption

Press stamp down 5 times to make the impression die touch inside ink pad.

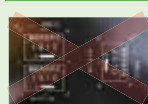

#### Paste the Label

Apply printed label on stamp grip.

Traditional stamp making required many processes and wastes.

No need to buy expensive supplies.

Film

Resin plate

Mold

Chemical liquid

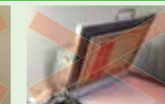

Lamp

Film

Leftover rubber

Chemical drain

No need to waste them.

# Xstamper QuiX

## Pre-Inked Stamp

### Easy grip

Grip is made to be compact even for larger sizes so that stamp fits on hand nicely.

### Refillable

Refill ink will save you money in the long run.

(How to re-ink ▶ P.151)

## HIGH QUALITY STAMPER

Xstamper QuiX can make 5,000 to 6,000 crisp impressions before re-inking.

### Highly waterproof ink

Perfect choice for important documents.

\*The photo is illustrative purpose only.

### 16 most popular sizes are available

You can choose perfect impression size.

※ Xstamper refill ink (Dystuff ink) is not allowed to be used for Xstamper QuiX
