PHILOSOPHY

Our mission statement describes our meaning of existence and the values we provide to society.

Delivering the "Convenience", "Genuine Pleasure" and "Trust & Safety" required by society, all over the world

Our mission is to deliver the values of “Convenience” , “Genuine Pleasure” , “Trust and Safety” to the wider society, even in these changing times.

In our role as a manufacturer, we have planned, developed and produced top quality products, and have provided value to customers through distributing stationery and stamp products.

We will work more closely with our users and provide the kind of products and services required by society, with complete confidence and conviction – all over the world.

Corporate
Video

Our vision statement describes how Shachihata will achieve in the medium term.

We provide "the value of the sign" to meet the expectations of our users, and continue to create new markets

We want to continue to provide "the value of the sign" in both the analogue and digital realms. We need to change how we provide value, as society changes at an increasingly rapid rate as user lifestyles, preferences and sensitivities become more diverse. As we look forward to the next 100 years, we will expand what "the value of the sign" means as we continue to meet the expectations of our users, build new pillars of business and create new markets.

Our values represent concepts and criteria for decision making valued by each employee.

Gratitude

We are always very aware that we are supported by stakeholders and we will always show our gratitude through our actions.

User's Perspective

We always act from the user's point of view in order live up to their trust and expectations.

Challenge

We continue to challenge ourselves without fear of failure, learn from our process and results and apply what we have learnt toward future efforts.

Autonomy

We value actions based upon our ideas and decisions.

Diversity

We recognise differences in individual values, and value feelings of mutual respect.

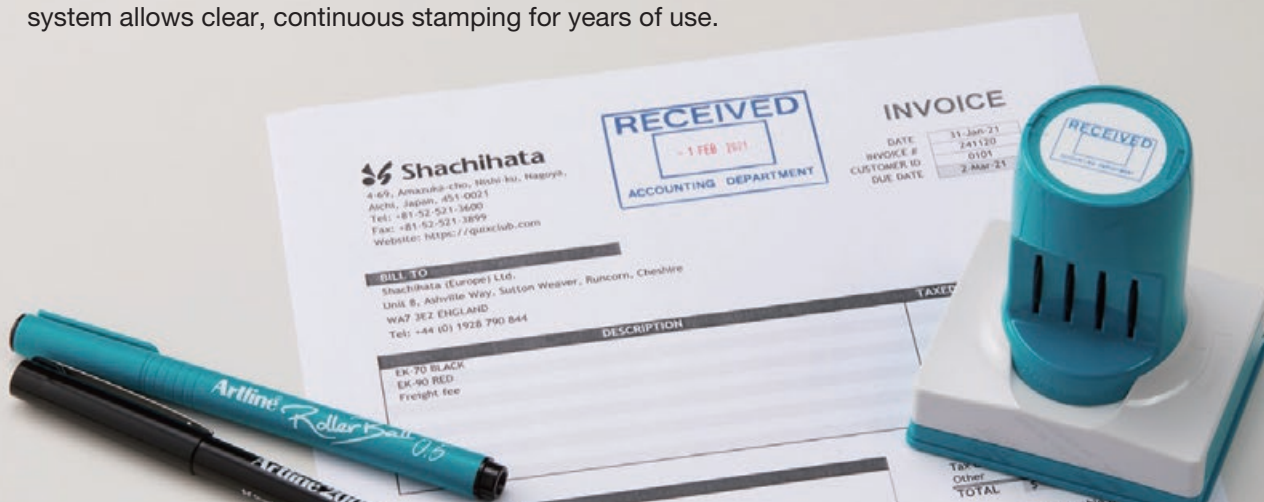

Artline®

Artline continues to innovate and develop writing instruments with a wide range of products and vivid ink colours that enhance the comfort and creativity of the people who use them.

Xstamper®

Xstamper brand consists of pre-inked rubber stamps that require no stamp pad. Our built-in ink reservoir system allows clear, continuous stamping for years of use.

TAT

TAT indelible ink can be used for making impressions on glass, metal, and other non-porous surfaces. For a wide range of purposes in various industrial settings, including the stamping of item codes, sizes, and inspection status.

GLOBAL NETWORK

The Shachihata brands, Artline and Xstamper are familiar brands worldwide. We have established an extensive corporate network, covering over 90 countries, which has allowed us to develop a global presence.

SHACHIHATA'S ECO ACTION CONCEPT

~For our Earth and our Future~

Environmental Policy

■ Environmental Charter

As an enterprise that enriches people's daily lives and culture, Shachihata regards environmental preservation as a corporate responsibility and is dedicated to the realization of a low-carbon society.

We also seek to provide environmentally friendly products and services with a low impact on the environment in line with its basic philosophy of balancing the needs of the environment with corporate activities.

■ Guiding Principles

1. We shall seek to create products that enrich people's lives and culture while finding the optimal way to manufacture them from the standpoint of the preservation of the global environment.
2. We shall make our environmental activities a management priority and encourage all employees to do their utmost to support these efforts.
3. We shall set our own standards for eco action and take steps to prevent the further destruction of the environment. In addition to adhering to relevant laws, regulations and other requirements.
4. We shall undertake periodic reviews of our environmental practices and standards with the aim of sustaining progress made in preserving the environment.
5. Steps shall be taken to make our environmental policies known not only to all employees but the general public as well with the goal of cultivating a shared understanding among all.

1. Manufacturing meets current regulations

Shachihata is manufacturing products under strict Global regulations of chemical substances from the planning of material composition to the shipping. We are also a Green Partner with some electronic and electrical equipment manufacturers.

RoHS

Shachihata follows directives of the European Union that restricts the use of certain hazardous substances in electrical and electronic equipment. Our products are widely used in the production process of manufacturers of such products.

REACH (SVHC)

Shachihata reviews regulations for manufacturers and importers by gathering information on the properties of chemical substances, in order to protect people's health and environment.

ELV

Shachihata products are widely used in the production process of car manufacturers as marking tools which meets the End of Life Vehicles Directive.

GHS

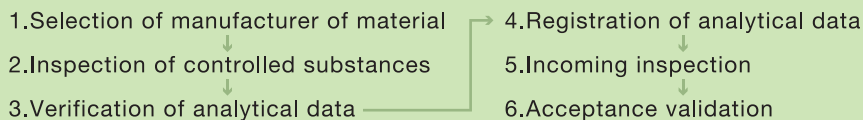

Shachihata provides by SDS the correct information about the potential dangers of chemical products according to Globally Harmonized System of Classification and Labeling.

In 2021, we established Shachihata Analysis Center to conduct in-house analysis for RoHS compliance, as a way of taking responsibility for our own product management going forward. Shachihata Analysis Center has acquired certification in the ISO/IEC 17025 international standard in 2022. We were Japan's first stationery manufacturer to acquire this standard.

Shachihata is adopting original regulation of environmental investigation.

[Example] Flow of chemical substances of purchased materials

Shachihata is compliant with various chemical survey sheets which are required by many types of industries, countries, and organizations (such as the EU), and is able to submit the documents.

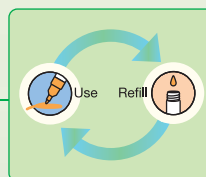

- SDS (Safety Data Sheet) Japanese / English
- JAMP chemSHERPA
- JAPIA (Japan Auto Parts Industries Association) sheet
- GADSL (Global Automotive Declarable Substance List)
- Declaration of Non-use of RoHS / SVHC
- Other particular inspection sheet

Environmental issues caused by excessive energy consumption must be dealt with immediately. Shachihata is dedicated to restoring balance in the global environment by stepping up its efforts to conserve and recycle resources and develop production systems that minimize industrial waste. Eco Action will remain a guiding principle in Shachihata's operations now and for the foreseeable future.

2. Manufacturing Long Life products

Long-lasting is one of our core concepts in research and development. We offer a full line-up of refillable markers, stamp pads, and pre-inked stamps.

Reduce

3. Ecology system good for people and the environment

Reuse

Shachihata conducts eco-friendly manufacturing at each factory.

Example: Inazawa (Japan) factory

Ink solvent recovery system

Waste water regenerating system

ERA
European Quality Assurance

ANAB
ANSI National Accreditation Board
ACCREDITED
ISO/IEC 17021
MANAGEMENT SYSTEMS
CERTIFICATION BODY

ISO 9001 / ISO 14001 : RESEARCH&DEVELOPMENT, PRODUCTION HEADQUARTER

4. Manufacturing that is good for the environment...ECO PRODUCTS

Recycle

Shachihata has released a line of ECO products made from recycled and other materials of a low impact on the environment with the realization of the action that must be taken by the manufacturer.

CATEGORY	ITEM CODE	RECYCLED PLASTICS	PERCENTAGE OF RECYCLED PLASTICS*

	CD-BEC/MS	RECYCLED ABS	68%

*Percentage of recycled plastics weight in the total of the plastic, not including the ink weight.

5. To prevent global warming

Refine

Shachihata has been conducting Carbon Offset (in Australia) to prevent global warming.

[Carbon Offset]

Artline has purchased carbon credits in biogas project. So Artline 70, 90, 700 and 100 permanent markers, 577/579 whiteboard markers, and 200, writing pen are doing their bit for the environment.

ABOUT THIS CATALOGUE...

We are pleased to present our extensive range of Artline, Xstamper, Xstamper QuiX and TAT products in this easy to use catalogue. Below and opposite you will see an explanation of the codes and symbols we use to describe their use and characteristics.

INSTRUCTION FOR VALVE ACTION

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

MARKER FOR T-SHIRT

DESIGN YOUR OWN ORIGINAL T-SHIRT

For use on T-SHIRTS, SWEAT-SHIRTS, JEANS and other cotton fabrics.

HOW TO MAKE YOUR OWN ORIGINAL T-SHIRT

HOW TO GET GOOD RESULTS

What you'll need

- Artline **SHIRT MARKER**
- Artline LAUNDRY MARKER (EK-750 black)
- Design
- Cardboard
- T-shirt (100% cotton)
- Iron

1

Attach a design to a piece of card with clear or paper tape.

2

Insert the card & design inside the T-shirt and position required.

3

Fold the sides of the T-shirt behind the card and secure them with clear or paper tape.

Keep the front side of the T-shirt from wrinkling. It makes line work easier.

4

Use a fine nib black or dark coloured **SHIRT MARKER** or the EK-750 to trace the outline of the design.

At this stage a rough outline is OK because you'll re-trace later.

5

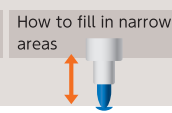

Fill in the design with **SHIRT MARKER**.

Keep applying colour until there is no white visible in the coloured areas. Gently stretch the material to check unpainted area is not left.

Lastly, colour small and detailed areas.

6

A thick emphasis to outlines using a black or dark coloured **SHIRT MARKER** or the EK-750 will add depth and contrast to your design. Modify any unsatisfactory areas.

7

Remove the card from the T-shirt. After the ink has dried, gently iron over the design at a medium heat to fix the colours.

Point

- Painting over other colours before ink dries will add a gradational effect. Note: A pen nib will get dirty.
- After ink dries, you may overglaze.
- You can also use colour photos or magazine cutouts as T-shirt designs.

4974052 864889 YELLOW

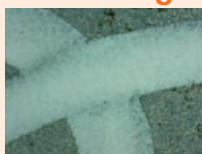

INSTRUCTION FOR VALVE ACTION

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

Corrosion Testing * Tested by Shachihata

Artline

INSTRUCTION FOR VALVE ACTION

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

INSTRUCTION FOR VALVE ACTION

- Before first use, remove cap and hold marker with the nib side facing up. Press down nib with your thumb once to release air.
- Replace cap and shake well.
- Depress the nib lightly a few times for sufficient ink flow.
- Do not press the nib too hard as excessive pressure can result in blotting.
- If the ink colour fades, wipe the nib with a piece of tissue paper or cloth.

Artline® BOARD MARKERS

TAT INDELIBLE STAMP PADS & TAT STAMPER

<Features of TAT stamp pads & TAT stamper>

- Multi-purpose stamping applications for all kinds of industrial works, lot number, item number, specification, and inspection marking.
- Clear stamping on non-porous surfaces.
- Strong marking, blur proof, and long lasting.
- Resistant to water, light, oil, heat, resin, and chemical.
- Marking remains even after second manufacturing process.
(alcohol cleaning, varnish processing, heating process, and washing, etc.)

● TAT series for various usage

Multi-purpose stamping applications for all kinds of industrial works

Point 1 We have been selling TAT products for more than 50 years from their release. We have a long history of reliance.

Many major automobile and electronics manufacturers around the world have been using TAT for many years.

Point 2 TAT Ink conforms to various restrictions and safe for people and the environment.

TAT ink is in compliance with EU restrictions on chemical substances and directives concerning environment. We assure that our customers can use TAT products with confidence in the product manufacturing process.

■ TAT products conform to regulations below

1) RoHS Directive*¹ 2) ELV Directive*² 3)GHS*³ 4)POPs*⁴ 5)REACH*⁵

■ Certification and Service

1) We can issue various chemical survey sheets and reports
2) We can issue our investigation sheet quickly

Point 3 We can offer special inks.

We provide special inks that meet the request for a special stamp environment.

Reference

1.Restriction of the Use of Certain Hazardous Substances (RoHS) Directive :

A directive of the European Union that restricts the use of certain hazardous substances in electrical and electronic equipment. The sale of electrical and electronic equipment that contain certain levels of (1) lead, (2) mercury, (3) cadmium, (4) hexavalent chromium, (5) polybrominated biphenyls (PBBs), (6) polybrominated diphenyl ethers (PBDEs), (7) dibutyl phthalate (DBP), (8) benzylbutyl phthalate (BBP), (9) bis-(2-ethylhexyl) phthalate (DEHP) and (10) diisobutyl phthalate (DIBP) is banned.

2.End of Life Vehicles (ELV) Directive :

A directive of the European Union that addresses the recycling of end-of-life vehicles with the aim of preventing the disposal of hazardous substances. Vehicles sold in the EU after July 2003 may not contain lead, mercury, cadmium, and hexavalent chromium.

3.Globally Harmonized System of Classification and labeling(GHS) :

The GHS is designed to alert workers and consumers to the potential dangers of chemical products by classifying chemical products according to the danger or toxicity of the product including whether they are carcinogenic or flammable, creating a standardized system for labeling that makes this information clear to users, and providing safety data sheets.

4.The Stockholm Convention on Persistent Organic Pollutants (POPs) :

POPs adopted in May 2001, is a global treaty to protect the environment and humans from chemicals that can accumulate and have harmful effects on the environment, humans and wildlife over long periods of time.

5.Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) :

A regulation introduced in the European Union (EU) in June 2007, under which substances manufactured or used in the EU are subject to registration, evaluation, authorization and restriction. In particular, SVHC refers to Substances of Very High Concern, which are substances of very high concern for the environment and human health, and are candidates for authorization under REACH. *TAT inks meet the specified thresholds.

TAT INDELIBLE STAMP PAD Multipurpose

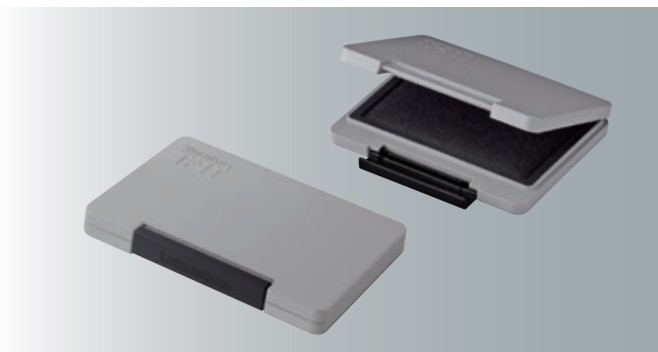

PERMANENT

PIGMENT INK

REFILLABLE

RoHS

- Contains oil based ink with ultra fine pigment particles, ideal for clear and smear resistant imprint on non-porous surfaces like metal, plastic, glass, leather, as well as on porous surfaces like coated paper, wood, etc.
- Its impression is heat-proof, highly oil resistant and shows excellent performance even after exposure to extreme conditions.

TAT SOLVENT

- Useful for restoring dried pad surfaces, diluting sticky pad surfaces with solvent to a proper consistency, and cleaning rubber stamps or removing impressions.
- When removing impressions, trial is recommended so that the solvent may not damage the objects' surfaces.

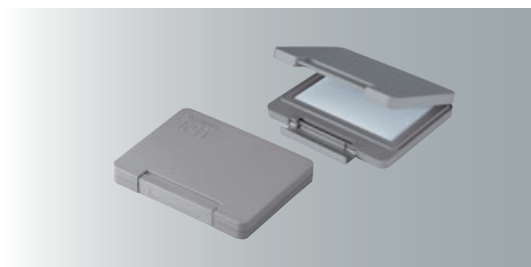

USAGE	ITEM CODE	CONTENTS	USAGE
SOLVENT for REGULAR DRY INK	SOL-1-31A	55ml	• To restore dried or sticky surfaces of TAT stamp pads. • Cleaning stamps, removing impressions, etc.
	SOL-3-31A	330ml	
SOLVENT for QUICK DRY INK	SOL-1-32A	55ml	
	SOL-3-32A	330ml	

TAT UNINKED STAMP PAD

- TAT uninked stamp pads are for use with TAT ink.

PAD SIZE		ITEM CODE
MEDIUM	56 x 90mm	ATU-2
LARGE	67 x 106mm	ATU-3
EXTRA LARGE	87 x 143mm	ATU-4

TAT SPECIAL TYPE INK AND SOLVENT FOR SPECIFIC MATERIAL

TAT ink (Special type) is recommended for impressions on specific materials, special colours and withstanding 2nd processing.

What would you like to print?

Metal? Plastic? Rubber? Cloth?

Step1: Identify the surface material you wish to print on.

What is the condition of imprint surface? What colour would you like?

Imprint surface will blur (Wood, Cloth)? Or shed (Mirror finish, PP coating)?

Step2: Check the colour of impression surface.
★ White ink is recommended for dark-coloured surface.

What is 2nd processing after stamping?

2nd processing, such as washing with chemical material and heating after stamping?

Step3: Check and identify any additional conditions (atmospheric or locational) that could influence results.

Special type TAT ink is available for

- ① Special impression surface (PE, PP, Silicon coated)
- ② Dark-coloured surfaces (Black, Dark blue)
- ③ Colour which is not available with stock TAT ink.
- ④ Processing such as cleaning with alcohol, varnish, heating and laundry.

Ideal ink

Quick dry type is easy to dry and harden, so please choose proper type.

*Basis of the judgement

1. Water, Oil, Solvent, Chemical resistance
● : Not removal, △ : Partly Removal, X : All removal
2. Fade, Heat resistance
● : Changeless, △ : Partly Change, X : Mostly Changed
3. Washing resistance (grey scale)
5 Grade: Changeless, 1 Grade: Mostly changed

- ▶ Note 1: White ink is not suitable for highly absorbent paper and cloth.
- ▶ Note 2: Although impression on glass or porcelain are very clear, avoid stamping on these materials used near water.
- ▶ Note 3: This light corresponds to the sunlight for 200 days outside.
- ▶ Note 4: If the heat is over 100°C, pigment will burn and turn brown.
- ▶ Note 5: After testing with the solvent, the impression will be removed, except impressed on cotton cloth.

- If impression is on non-carbon and thermal paper, colour of the impression can be absorbed or changed.
- Stamping conditions will vary depending on the surface of the object to be stamped.
Trial stamping should be conducted first to determine results.
- In case of impression on specific materials and with stamping 2nd process, it is recommended to use TAT ink (Special type).

HOW TO RE-INK

XQT-6C • XQT-11C • QPTT-QE9RG-U

1. Remove cap and place face down.
2. Hold stamp handle firmly and pull out die holder from handle.
3. Place die holder on top of removed cap with impression die facing down. Hold die holder firmly and remove top plug.
4. Place drops of ink into the opening.

XQT-16C • XQT-20C • QPTT-QE14RG-U • QPTT-QE18RG-U

1. Remove the holder and insert into bottom of cap.
2. Place drops of ink into the opening.

XQT-30C • QPTT-QE28RG-U

1. Screw off cap and hold handle vertically. Use bottom-side of cap to remove die holder. Insert bottom of cap to die holder and turn handle counter-clockwise towards 'open' to remove die holder.
2. Place drops of ink into the opening.

XQT-1342C • QPTT-Q1140RG-U

1. Remove the holder and take out the caps.
2. Place drops of ink into the openings.

TAT Metal Stamp

INTEGRATION INTO PRODUCTION LINES

An industrial inspection stamp featuring 9mm diameter and durable metal body. The custom-made impression design allows stamping and marking according to your requests. It has a hole for an M4 bolt on the top of its body, so it can also be used as a stamp head for an automatic stamp by attaching it to a telescopic actuator or air cylinder.

*Pigment ink: Character in black **Dyestuff ink: Character in red**

*Pigment ink is superior to light resistant and chemical resistant.

Dyestuff ink is low viscosity and relatively less sticky on the surface of stamp pad than pigment ink for a long time use.

*White ink is not suitable for stamping on absorbent cloth and paper.

*Criterion of drying time: Under controlled tests 20°C±1, 65%±5 humidity.

***1. It may occur to remove ink when rubbing off strongly.**

(M)SDS

(Material) Safety Data Sheet ((M)SDS) is supplied by manufacturers of product which contains the information of chemical materials. To control properly, (M)SDS also contains the information about ingredients and chemical materials and how to handle the chemical products.

Alcohol cleaning to plastics and metals	M-365	Oil based, Pigment ink	20-30 seconds	Black	SOL-22
Hydrocarbon solvent treatment to plastics	M-281N	Oil based, Dyestuff ink	4-5 minutes	Black	SOL-24N
Hydrocarbon solvent treatment to plastics specially with xylene solvent	M-282	Oil based, Dyestuff ink	4-5 minutes	Black	SOL-24N

<Cautions>

- Stamping conditions will vary depending on the surface of the object to be stamped. Trial stamping should be conducted first to determine results.
- Under the condition of temperature 20°C±1, humidity 65%±5.
- Pigment ink is superior to light resistant and chemical resistant. Dyestuff ink is low viscosity and relatively less sticky on the surface of stamp pad than pigment ink for long time use.
- If you need another colour of STSGA or STGA (Black, Red, Blue, Green, Purple, White), M-505A or M-606N is available.
- As for STSMA, STM-N (For metal) and STSPA, STP-N (For plastic), only black is available. If you need another colour, use M-500A or M-600N.
- Super Quick dry ink is available if less drying time ink than Quick dry ink is necessary.
- * White ink is not suitable for stamping on absorbent cloth and paper.

Xstamper®

Every day millions of people around the world turn to Xstamper brand rubber stamps to assist them in their personal and business lives. They know they'll be getting a sharp, clear impression. They know they are enjoying the results of a long tradition of innovation. They know that each and every Xstamper is product of superior technology and quality materials. And, most comforting of all, they know that the Xstamper they hold in their hand comes with a lifetime guarantee.

1965

Xstamper was launched from upside down idea that "Stamp did not require stamp pad".

1968

Japan's pre-inked stamp market was created with a birth of Name stamp (9 mm type). First overseas Shachihata Inc. focusing on stamper business was established in U.S.A..

1973

Rotating stamper which was a baseline of current Dater stamps was launched.

1989

Custom stamp made by laser processing machine was launched.

2000

Small laser processing machine was employed.

2006

Xstamper vX series were launched.

2007

vXDater series which adopted slim PE technology were launched.

2008

Xstamper which adopted eco-friendly materials were launched.

2009

Secure stamper series which aimed to protect personal information were launched.

2012

Some of products were chosen as official seal in China. Some of products were chosen as custom office stampers in one of Asian markets.

2014

Some of products were chosen as election stamps in one of Asian markets.

2016

Xstamper QuiX series were launched.

2020

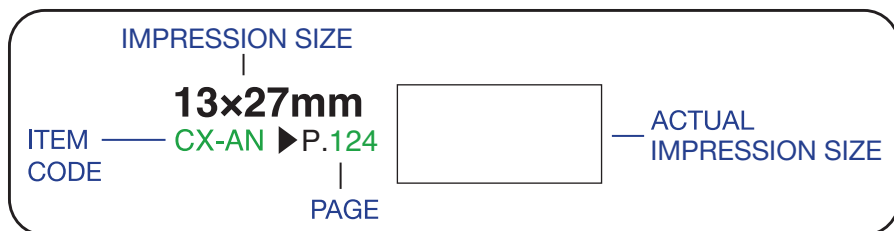

Xstamper QuiX Name Stamp was launched.

2021

Xstamper QuiX Dater was launched.

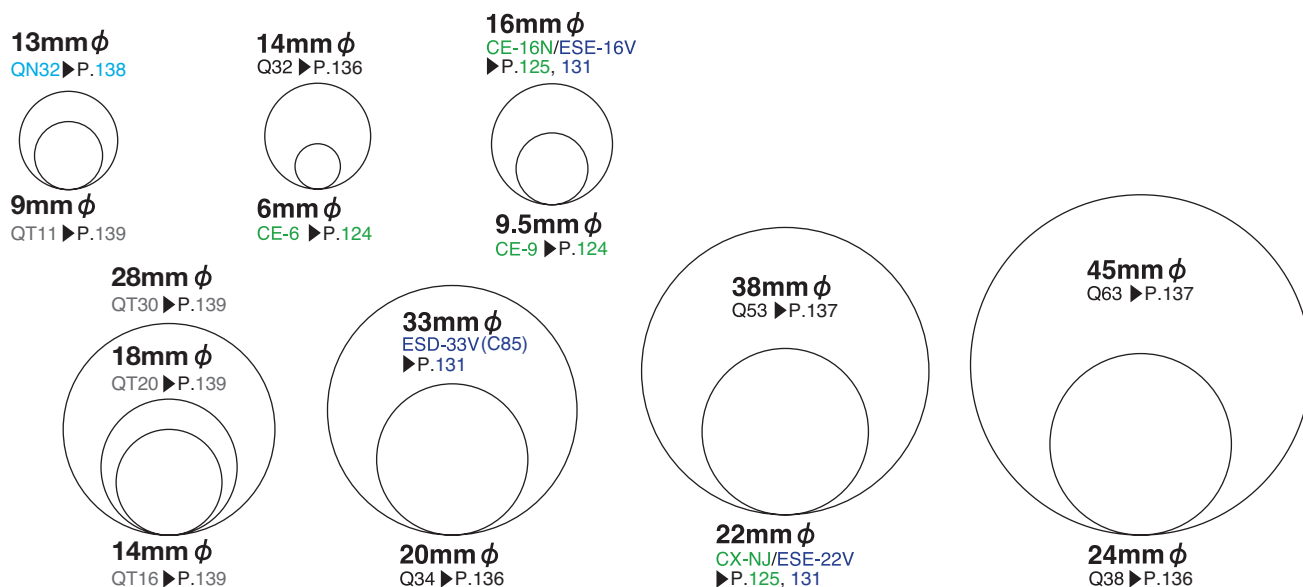

2025

Ukiyo-e Layer Stamp Kit was launched for global markets.

Xstamper®

STOCK TITLE STAMPS

**BEST SELLER STOCK TITLE STAMPS
FOR MORE EFFICIENT COMMUNICATION**

Pre-inked rubber stamp. No stamp pad required. Re-inking system for cost savings.
Several tens of thousands of clear impressions before re-inking.

Xstamper® means Quality

Clean

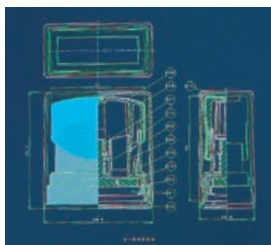

Re-inkable

Long lasting

Cost effective

Non-slip Soft Grip

Soft rubberized grip for comfort and control.

Retractable Frame System

Stamp face out of contact with desk top or papers to avoid accidental stamping.

Clear Text Window

Title messages can be clearly seen and identified easily.

Protective Impression Cover

Comes with an impression cover to protect the stamp surface.

Pre-inked, No Mess

Pre-inked rubber. No need for messy stamp pads.

Clean

Xstamper eliminates the need for messy stamp pads. A retractable frame keeps the stamp surface out of contact with your desk.

Re-inkable

Our built-in reservoir re-inking system adds years of service to your Xstamper. Xstamper provides several tens of thousands of crisp and clean impressions before requiring additional ink.

Long lasting

After the first several tens of thousands of impressions, just a few drops of Xstamper ink is all you need for the next several tens of thousands of impressions.

Cost effective

Xstamper is so durable, you will never buy another stamp again, which means you pay less per impression than any other stamp.

Permanent Marker

Secure Redaction Marker

With ordinary marker ink, carbon often floats to the top after the ink dries, which makes original text readable again because of light reflection. Secure Redaction Marker ink formula minimizes this phenomenon to obscure information.

HOW TO RE-INK

SIMPLE
NO MESS
NO FUSS
FAST
INCLUDED

Just place drops of ink in your Xstamper. Make sure the ink is the same colour as your original stamp.
Hands remain clean throughout the re-inking process.
After re-inking, leave your Xstamper in an upright position to allow complete absorption (approx. 12 hours).
Your Xstamper will be ready for the next several tens of thousands of impressions.
Easy-to-follow re-inking instructions are included with every Xstamper.

CE-6
CE-9
CE-16N
ESE-16V
ESE-22V

Remove the holder and place drops of ink into the opening.

CA-2N
CA-2N(2)

Remove the holder and place drops of ink into the openings.

ESP-1V
ESP-2V

Remove the title plate and place 2 to 3 drops of ink into the openings.

CD-AEC(0)
CD-AEC(1)
CD-BEC/S

Remove base or impression frame from Line Dater. Cut tip of ink cartridge nozzle off about 5mm from the end. Gently squeeze ink into the hole on the right side of the date bands.

CD-BEC/MS

Remove impression frame from Line Dater. Insert tip of cartridge into either side of the impression frame and gently squeeze several drops of ink along the openings.

CX-M

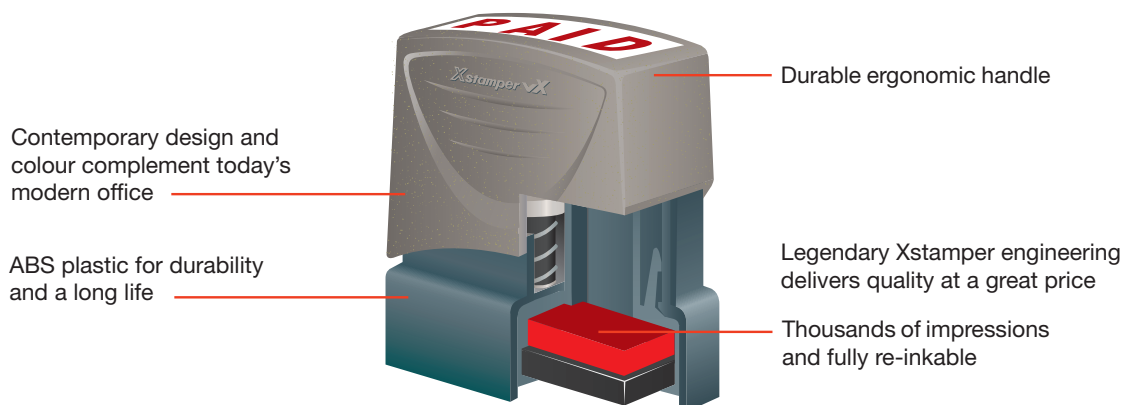

With bottom facing you, hold the dial tightly so it does not move and slide out the rubber stamp cartridge. Put about 4 to 5 drops of refill ink into the channel. To insert stamp cartridge, slide in cartridge along the rails until the cartridge clicks into place. Be sure to insert cartridge into holder starting with the double slots side first.

■ Specification

Power	A Type: AC100V~125V (50/60Hz) / C Type: AC100V~240V (50/60Hz)		
Measurement	222 (W) × 384 (D) × 228 (H) mm		
Weight (Volume)	7kg	Interface	USB2.0 (Hi-Speed), Ethernet
OS	Windows 7 / 8 / 8.1 / 10 / 11	Resolution	600dpi
Applicable Standards	UL, UKCA, CE, FCC Class A, RoHS	Printable Space	53×100mm
Cartridge Measurement	104 (W) × 142.5 (D) × 10 (H) mm		
AC Adapter Spec	Rated Input: AC100-240V (50/60Hz), 2A / Rated Output: DC24V, 2.7A, MAX65W		
AC Cord	A Type: Length 1.2m 125v/7A / C Type: Length 2.0m 250v/2.5A		
Consumables or Durables (Parts)	Print Head, Print Head Protecting Ribbon, Fan Filter		

* Typical lead time for Q10(11x40mm) after artwork is complete.

* Uninked parts set always comes with black impression label only.

■ Production process of Xstamper QuiX

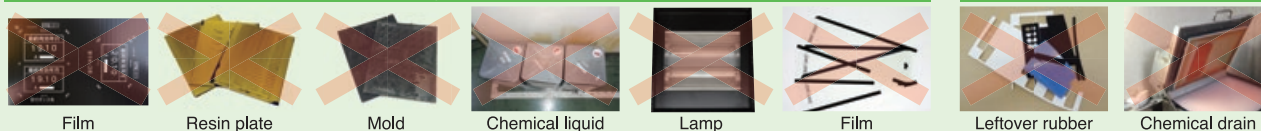

■ Assembly process of Xstamper QuiX

Traditional stamp making required many processes and wastes.

No need to buy expensive supplies.

No need to waste them.

Xstamper QuiX

Pre-Inked Stamp

Easy grip

Grip is made to be compact even for larger sizes so that stamp fits on hand nicely.

HIGH QUALITY STAMPER

Xstamper QuiX can make 5,000 to 6,000 crisp impressions before re-inking.

Highly waterproof ink

Perfect choice for important documents.

*The photo is illustrative purpose only.

Refillable

Refill ink will save you money and environment in the long run.

(How to re-ink ▶ P.137)

17 most popular sizes are available

You can choose perfect impression size.

* Xstamper refill ink (Dyestuff ink) cannot be used for Xstamper QuiX, Xstamper QuiX Name Stamp, or Xstamper QuiX TAT Stamper.

Ukiyo-e Layer Stamp Kit

Increase event success with our Stamp Rally service, Ukiyo-e Layer Stamp Kit!

Ukiyo-e Layer Stamp Kit offers the joy of printmaking.

What is a Stamp Rally?

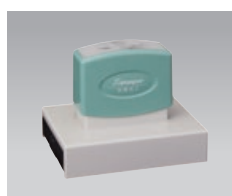

Stamp Rally is an activity where participants visit specific locations and collect stamps. Using a map, they go from place to place and enjoy getting unique stamps at each spot. It's a popular and fun activity often held in tourist areas, theme parks, and train stations.

Ukiyo-e Layer Stamp Kit adds a creative twist to this idea. At each location, participants press different stamps onto their paper. When they've visited all the spots, the stamps combine to create a beautiful piece of art. This way, they not only enjoy collecting stamps but also feel the joy and achievement of completing their artwork.

Ukiyo-e Layer Stamp Kit

NEW

Standard Set

Rectangle 65100
Antibacterial
(For Ukiyo-e Layer Stamp Kit)

Square 80 Antibacterial
(For Ukiyo-e Layer Stamp Kit)

Printed Paper Card 65100
Size 148×100mm

Guide Frame Rectangle
65100
* Fix the Printed Paper
Card firmly before
stamping.

Standard Set

Item	Item Code
Rectangle 65100 Antibacterial (For Ukiyo-e Layer Stamp Kit)	XH-65100K (SR)
Square 80 Antibacterial (For Ukiyo-e Layer Stamp Kit)	XS-80K (SR)
Guide Frame Rectangle 65100	SR-PJ-XH65100
Guide Frame Square 80	SR-PJ-XS80K

Wood Grain Finish Series

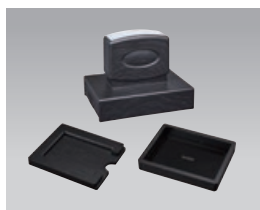

Ideal for stamp rally events held at museums, galleries, and outdoor locations as its design blends well with the surroundings.

How to Use DIY NAME STAMP

- 1** Remove the characters you need from the rubber sheet.

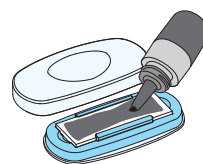

※Characters can be removed by hand. If characters are difficult to remove, cut using scissors.

- 2** Insert the characters into the character holder one at a time from the right end, making sure they are facing the correct direction.

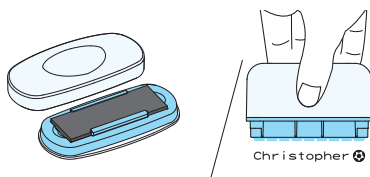

- 3** Open the lid of the stamp pad and fill the entire ink pad.

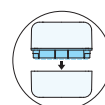

- 4** Press the DIY NAME STAMP onto the ink pad a few times and test the stamp before making your final stamp.

- This product uses an oil based quick dry ink. Always close the lid of the stamp pad after use. The next time you use the stamp, make a test impression to check whether the ink is lighter, and refill the ink as required.

※After use, remember to replace the cap, close the lid of the stamp pad, and store horizontally.

CLASSIX
